

Senior Research Scientist

Immunovaccine Inc. (IMV) has a great opportunity for a skilled research scientist. Immunovaccine Inc. is focused on the commercialization of its novel vaccine technology and product candidates. The company continues to strengthen its vaccine pipeline through licensing and strategic partnerships to develop therapeutic cancer and infectious disease vaccines.

Job Purpose

Lead and participate in designing and executing various research programs in cancer and infectious diseases. A broad in-depth knowledge of vaccines and strong leadership and communication skills are required. Immunovaccine's patented vaccine delivery system, DepoVax™, is now in the clinical stage and is applicable for the enhancement of cancer and infectious disease vaccines.

Key Responsibilities

- Participate in designing and running research programs
- Evaluate new products and vaccine technologies
- Prepare research reports and grant applications
- Participate in the preparation of IND filings
- Provide senior level support to the Vice President of Research and Development

IMV is looking for a highly qualified, credible scientist with a solid track record and broad background in vaccinology gained through three to five years experience in North American operations. This person will have an ability to evaluate vaccine technologies including delivery platforms, vaccine components and vaccine targets. Leadership qualities are essential along with excellent verifiable communication skills, both written and verbal.

The successful candidate will have knowledge and exposure to the regulatory requirements of phase 1 and phase 2 biologics gained through experience in the pharmaceutical industry.

Salary will be commensurate with the successful candidate's skills and experience.

This opportunity is with a very exciting company with an excellent reputation and a strong and accomplished management team. Aside from the candidate's expertise, IMV is looking for someone that is willing to relocate to Nova Scotia, Canada. If you think this story is or can be yours, please send your resume either in Word or PDF format highlighting your experience and skill set to employment@invaccine.com

This posting will remain open until February 26, 2010 or until the position is filled.
